

Kellogg Supply, Inc. Testimonial on: “The Accounting Game™” and “The Financial Game for Decision Making™”

“It is with great pleasure that I write to you regarding the value I received from ‘The Accounting Game.’

First, I realized how accounting terms were easy to understand and how my background of learning was so simple to unscramble into usable concepts. This to me was a miracle.

Secondly, I had a very clear experience of my success in all business pursuits throughout my life. This contextual shift occurred during ‘The Game’ and has surfaced throughout many business transactions since the course.

The course is an invaluable tool in my day to day business and personal life.”

Cordially,
Paul E. Askier
